GOOD RECEIPTS

And Sales Considerably Heavier Than Last Week.

Loose Tobacco Coming In Freely And This Branch of Business Quite Active.

Sales of tobacco this week amounted to 66 hogsheads and sales for the year 125 hogsheads.

The sales were made up entirely of old stock and prices obtained were very satisfactory. Quotations remain unchanged. Receipts for the week, 275 hogsheads, but as the year 1255 hogsheads, the market is steady, with but little very fine leaf showing up, as yet.

Loose tobacco is coming in freely and this branch of the business is decidedly more active than for some time. The weed has been in good order for handling for ten days or more and loose receipts each day have been heavy. On account of the bad condition of the country roads, many farmers have been unable to move their crops, but an improvement of the highways will have a tendency to cause a rush in delivery and a greater activity in the tobacco business in all its branches.

TRIPLE WEDDING.

Pilot Rock People Joined in Marriage at Clarksville.

Three Christian county couples were married in Clarksville Wednesday morning. They were J. W. Williams to Miss Marcelle Williams, William Jordan to Miss Alice Williams, and Gus Carpenter to Miss Clyde M. Berry. Four of the young people were elopers and met the other two at Guthrie Tuesday evening. The young people were unable to secure licenses Tuesday night, so the triple wedding had to be postponed until the next morning, when Esq. S. A. Caldwell tied the nuptial knots. The newly married couples came to this city, by way of Gracey, Wednesday afternoon, and went to their homes near Pilot Rock yesterday.

GRACEY FARMER

Succumbs to Attack of Pneumonia After Brief Illness.

Mr. Mitchell Stewart, a well known farmer who lived about four miles north of Gracey, died Tuesday night, after an illness of about a week of pneumonia. He was about 55 years old, a member of the Baptist church, and is survived by a widow.

The interment took place in the Lander burying ground, near Gracey, Wednesday.

MAJOR-LITTON.

Former Cadiz Citizen Weds a Nashville Belle.

Mr. C. D. Major, formerly of Cadiz, and Miss Ida Litton, of Nashville, were married yesterday.

The groom was born and reared in Cadiz and is well known in this city, where he has many friends. His bride is possessed of numerous accomplishments and is a reigning belle in the Rock City.

LOG CRUSHED LEG.

Bad Accident Happens to Son of J. M. Weaver.

Morris, the 10-year-old son of Mr. J. M. Weaver, of Weaver's Store, fell and broke his leg. The little fellow was carrying a piece of wood into the house when he slipped on the ice. The limb was caught under the heavy stick of wood and the bone was broken in two above the knee.

THE LEGISLATURE

Getting Down To Work Of Passing Bills.

Bill Passed In The House With a Bearing On Hopkins County Trouble.

The Legislature got down to work earnest Tuesday. Among the bills passed by the House was one repealing that section of the mob law compelling County Judges to appoint ten guards in case of labor disturbances. The Newcomb bill providing for six Circuit Judges in Jefferson county was passed unanimously. Two judges are to be appointed by the Governor at once, to serve until those elected in November, 1902, shall qualify. The Revenue bill and the Louisville Wharfmaster bill were advanced to second reading. The Senate killed the bill compelling express trains to stop at county seats.

The Senate committee will report adversely on the House bill for the removal of the capital. It is regarded as certain that the bill will be defeated when voted upon.

The Senate Committee on Charitable Institutions will favorably report the Carroll bill placing the asylum under a board of control. The Redistricting Committee has reached an agreement on the judicial and congressional districts. The only congressional districts affected by the changes are the Second, Third, Fourth and Eleventh.

The only changes in congressional districts are as follows: Second—Muhlenberg added. Third—Muhlenberg taken out. Adair added. Fourth—Casey added. Eleventh—Adair and Casey taken out.

The bill repealing the McCain tobacco law has passed the House and will soon pass the Senate.

THE INVESTIGATION BEGUN.

The Senate Committee on Penitentiaries and Houses of Reform Tuesday night began their investigation of the numerous charges recently preferred against the management of the penitentiaries. A comparison was made of the reports of the Auditor and Board of Prison Commissioners. A dozen witnesses were also examined. The investigation is secret. It will be resumed to-morrow.

Wednesday was a working day in both houses.

The Dreyer freeman's pension bill for Louisville has been signed and is a law. Also the act providing for refunding to State banks the taxes paid by them under the Hewitt law.

The House passed the Newcomb free kindergarten bill for Louisville and also the bill increasing the fees of the Jefferson county assessor.

The Senate passed the Coleman bill, establishing a Confederate Soldiers' Home. There was not a single vote against the bill, which provides for an appropriation of \$125 annually for each inmate of the home, provided the total amount shall not exceed \$10,000 annually, the home to be built and equipped by private subscription and presented to the State.

The Adams bill requiring non-residents to pay taxes on mortgages held by them in the State was defeated.

The Sublett bill electing the railroad commissioners from the State at large, each district making its nomination, passed the Senate by a party vote. It prevents the Eastern district from electing a Republican.

The Dyer bill authorizing Fiscal Courts to contract for hospital care for sick poor, passed the Senate. The Byron bill authorizing counties to sue for taxes due the counties, was passed.

The bill providing for quadrennial assessments instead of annual was defeated.

A test vote showed that the Farley Local Option bill will pass the Senate by 20 to 17 if it ever reaches

PROVISIONS OF THE BILL.

The chief provisions of the Carroll Asylum Bill to be favorably reported are embraced in the following paragraph from it:

"A State Board of Charities is hereby created, to be known as the Kentucky State Board of Charity, whose powers and duties shall be as herein prescribed. Said board shall consist of three members, to be appointed by the Governor, by and with the advice of the Senate, two of whom may be of the same political faith as the Governor who appoints them, and one shall be a member of the party that polled the next highest vote at the last election preceding the appointment for any officers elected by the voters of the entire State or presidential electors, but in no event shall appointments be made so that all of said Commissioners shall be of the same political party. The first Commissioners appointed under this act shall hold their offices for the term of two, three and four years respectively, and until their successors are appointed and qualified, the members of said board to determine by lot as to which of them shall hold office for two, three or four years, and when the term of office of each of the first Commissioners expire their successors shall be appointed and hold office for a period of four years or until their successors are appointed and qualified. Vacancies in said board, occasioned by death, resignation or otherwise, shall be filled by appointment by the Governor, subject to the same rules as in making original appointments, and the name of said appointee or appointees shall be sent to the first Senate after such appointment, which convenes in regular session, within ten days after its organization, for confirmation or rejection, and if the Senate is in session at the time of vacancy in said board is filed, the name of the appointee must be at once sent to the Senate for confirmation or rejection. The Governor may remove all or any of the members of said board, but when he does so he must, within ten days thereafter, file in the office of the Secretary of State a written statement, showing his reasons for said removal, together with any papers pertaining to same, but in no case shall any removal be made for any political cause or reason.

Said Commissioners shall each give bond in the sum of \$25,000. They shall have the power to elect a President and Secretary, the latter of whom shall receive an annual salary of \$1,500. Each Commissioner shall receive for his services the sum of \$2,500 annually, to be paid in monthly installments by the Auditor of Public Accounts out of the State Treasury, in the same manner as are the salaries of other officers payable out of the State Treasury, and they shall also be paid their actual traveling expenses in visiting the various institutions, whose expenses shall be

itemized and sworn to and certified to the Auditor of Public Accounts by the President and Secretary of the board.

"The said Commissioners shall have full power at all times to look into and examine the condition of the several institutions of the State, hereinafter mentioned, financially or otherwise; to inquire and examine into their method of instruction and the government and management of their inmates, the official conduct of the officers and employees of same, the condition of the buildings, grounds and other property connected therewith, and into all other matters pertaining to their usefulness and good management; and for these purposes they shall have free access to the grounds, buildings and all books and papers relating to said institutions, and all persons now or hereafter in any manner connected with the same, are hereby directed and required to give such information and afford such facilities for inspection as said commission may require, and any neglect or refusal on the part of any officer or person connected with such institution to comply with the provisions of this section shall subject the offender to a penalty of two hundred and fifty dollars.

The Commissioners shall appoint a chief physician for each asylum and such assistants as they deem necessary, the chief physician to have charge of treatment of patients only. A steward shall manage all business affairs of each institution, under supervision of the Commissioners. The chief physician shall appoint all employees subject to the approval of the Commissioners. The employees shall not be removed for political reasons."

The bill abolishes the present per capita law and provides that the Commissioners shall draw on the treasury through the Auditor as in the case of prison management. The Commissioners have authority to dismiss patients and to transfer them from one institution to another.

LOSS TOTAL.

Residence and Contents Destroyed By Fire Monday Night.

The residence of Squire McCook, col., who lives near the stand-pipe, was destroyed by fire Monday night. Nearly all the contents were also consumed. The loss was about \$150. He had no insurance. The fire caught from the chimney.

Youthful Criminal.

Clarksville, Tenn., Feb. 18.—One of the youngest criminals ever apprehended here was arrested by the police, charged with robbing the local grocery of Tilley & Russell. His name is John Major, and he is a colored boy only ten years old. He did not steal very much. He is being held to await the action of the grand jury.

DAWSON

More Than Likely to be a Deserter Camp.

Business Men of Dawson See Run Staring Them in the Face.

Chicago, Feb. 18.—(Advices from Dawson, via Skaguay, according to a Seattle special to the Chronicle, states that an order which arrived from Ottawa recently gives to the Treadgold Water and Mining Syndicate possession of all vacant ground and all ground to become vacant in the richest portion of the Klondike. Canadians have joined Americans in expressions of indignation, and will leave for the other gold fields.

Business men of Dawson see run staring them in the face. It is said that unless action is taken at Ottawa immediately six weeks will see Dawson a deserted camp. A monster mass meeting was in progress when the message was sent.

The order gives A. N. C. Treadgold, Sir Thomas Tancred and other members of the syndicate title in fee to all lapsed or vacant placer claims on Klondike, Bear and Bonanza creeks and all their tributaries. This includes Eldorado creek, the richest in the world. This leaves of the paying creeks only Dominion, Gold Run and Sulphur and Indian river that will remain open.

One Phrase Sufficient.

New York Times

A wealthy young man, on his way to Europe for the first time, dropped into conversation with F. Marion Crawford, who has no small reputation for globe trotting. Said the beginner:

"No doubt the American abroad can make his way about on a very small stock of foreign language."

"Only one phrase is really necessary," replied Mr. Crawford.

"What one is that?"

"How much!"

Great Mining Deal In Oregon.

Baker City, Ore., Feb. 18.—The greatest mining deal in the history of Eastern Oregon has been closed here, by which the Red Boy and Concord mines, of the Granite district, consolidated.

The consolidation was perfected by the incorporation of the Red Boy Consolidated Gold Mines Company, under the laws of West Virginia. The capital stock is \$3,000,000.

The Senate Appropriation Committee reported a bill appropriating \$30,000 for the erection of a dormitory at the A. and M. College at Lexington.

NORTONVILLE SOLD.

Big Deal Reported in the Norton Property About Nortonville.

It is stated upon what seems to be reliable authority that the Norton estate has sold its holdings of land in and around Nortonville to a syndicate which will proceed to develop that section of the county by opening mines, erecting stores, and residences and doing other things necessarily connected with a large scheme of development. Owing to the refusal of the Norton heirs for all these years to sell their Nortonville property no improvements of consequence have been made there, while no doubt a flourishing little place would already have been built up there but for the attitude of the owners of the land. Nortonville is the intersection of the L. & N. and I. C. railroads and is surrounded by an average farming section of Hopkins county.—Madisonville Hustler.

Ashland, Wis., Feb. 18.—Herman C. Fabrig, inventor of the Fabrig medal, committed suicide here today by shooting himself.

Fabrig was an expert medal worker and a few years ago perfected the medal which bears his name, after having spent a life time in its invention. Ashland men had recently become interested in the invention and put the medal upon the market and it was believed a fortune was in sight for the inventor.

PADUCAH

"Putting On Airs," and Will Be a Second Class City.

The City Council has decided by a vote of 9 to 3 to make Paducah a second-class city. Such a bill is now being held by Representative Clark at Frankfort, and he will at once be authorized to introduce it. There has been some objection to making the step because the Legislature fixes the salaries of the municipal officers of such cities, and the tax rate might be higher.

CITY UNDER ONE ROOF.

Chicago Office Building Will House 9,000 People.

A permit was issued last Monday for the construction of what is planned to be the largest office building in the world. The building is projected by the First National Bank officers and will house, when completed, 9,000 people. The building will start at Dearborn and Moore streets, and will cost \$5,000,000. Work will be begun in the spring.

A FACT ABOUT THE "BLUES"

What is known as the "Blues" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disordered LIVER.

THIS IS A FACT which may be demonstrated by trying a course of

Pitt's Pills

They control and regulate the LIVER. They bring hope and buoyancy to the mind. They bring health and elasticity to the body.

TAKE NO SUBSTITUTE.

There is a pretty story in connection with the series which Helen Keller, the wonderful blind girl, has written for the Ladies' Home Journal, telling about her own life from infancy to the present day. She always has shrunk from the publicity which follows successful literary work, and it was with great difficulty that she was persuaded to take up the task of preparing her autobiography. She had, however, set her heart on owning an island in Halifax harbor for a summer home, and in a spirit of fun the editor of The Journal offered to buy it for her, or to provide the means to it. When the work of writing appeared especially irksome Miss Keller was reminded of her desire to become a land-holder, and it spurred her on. Just before Christmas she completed the first chapter of her marvelous story; and on Christmas morning she received from her publishers a check for a good round sum. Her delight may be imagined, for this was the first money of any account which she had ever earned. "It is a fairy tale come true," she said. Whether she will really carry out her plan to buy the island remains to be seen.

Hopkinsville, Ky., June 7, 1901. Dr. E. W. HALL, St. Louis, Mo.

DEAR SIR:—I suffered ten years with severe kidney and bladder troubles and at times was unable to work. I was advised to try your Texas Wonder and after using one fourth of one bottle I passed a large gravel and I have never suffered since passing the same three years ago, and I have recommended it to many others who reported themselves cured. I most heartily recommend it to all sufferers from kidney or bladder disease. SAM DEAN.

LYNCHED

Negro Minstrel Fires From This Stage And Kills Two men.

New Madrid, Mo., Feb. 17.—Last night a crowd of naked men overpowered the Jailer and took a negro, Louis Wright, a short distance from town and hanged him.

Richard & Pringle's negro minstrel gave an entertainment here Saturday night when an altercation arose between one of the musicians and some of the white town boys. Several of the boys undertook to take the musicians out when the negroes on the stage began to shoot. Several whites in the audience were hit, but no one was seriously hurt.

The negroes ran out the back way to their private car, which was soon surrounded by armed men, but no violence was done, owing to the arrival of the town marshal. All the negroes were put in jail, and as the result of an examination the name of the one who did the shooting was discovered.

He was lynched and the others will be released. Several of the prisoners were badly beaten Saturday night.

PAUPER

Invited to Pack His Baggage and Leave The Almshouse.

Superintendent J. K. Westfall, of the Home of the Aged and Infirm, at Louisville, discharged one of the male inmates from the home Monday under peculiar circumstances. The man asked the superintendent to cash a couple of checks of \$25 each.

When closely questioned the "pauper" admitted that he owned a farm of 100 acres on Kentucky River worth \$100 an acre. He said he could not get along well with his daughter-in-law and came to Louisville, leaving the farm in charge of his son. He obtained a permit to enter the home by representing that he had lived in Jefferson county for a year.

Capt. Westfall told him, after the check episode, to pack up his baggage and leave the home at once.

Debt To Be Paid At Nashville By a Candidate.

There has been much rivalry over the office of County Clerk of Davidson county. Saturday W. W. Pease, an aspirant who is a wealthy man, went his opponents one better and offered, if nominated, to pay off a debt of \$4,000 on the Sam Jones Tabernacle at Nashville. As an evidence of good faith he has deposited the money with a local bank and publishes the cashier's receipt. The religious people will doubtless turn out and nominate Pease, because they have been struggling to pay off the debt.

CUTS HIS SALARY.

Thinks He Is Not Worth More Than \$8,000 a Year.

Rev. Dr. David Gregg has asked the trustees of the Lafayette-avenue Presbyterian church, Brooklyn, of which he is pastor, to reduce his annual salary from \$10,000 to \$8,000 because he feels that he is no longer worth the larger sum. "If I was paying my own salary," says Dr. Gregg, "I would not give myself more than \$8,000 a year."

"Quick lunch" is one of the commonest of city signs. The sign doesn't say "a healthy lunch of good food—the character of the food is not mentioned. It's just a quick lunch—eat and get away. Is it any wonder that the stomach breaks down? Food is not needed for the digestion and assimilation of food, very often, and the stomach has to do the best it can. Normally there should be no need for medical assistance for the stomach. But the average method of life is abnormal and while this continues there will always be a demand for Dr. Pierce's Golden Medical Discovery. It is the one medicine which can be relied on to cure diseases of the stomach and the organs of digestion and nutrition. It is not a cure all. It is a medicine designed for the stomach, and to cure through the stomach remote diseases which have their cause in the derangement of the stomach and digestive and nutritive system. It cures when all else fails.

ANNOUNCEMENT:

We are authorized to announce
MR. W. H. C. BELL,
Of Christ as County, as a candidate for Railroad Commissioner in the First Railroad District of Kentucky, subject to the action of the Democratic party. Election Nov. 1902.

E. J. Hobby, of Franklin, has announced as a candidate for the Democratic nomination for Congress in the Third district.

The Governor has signed the bill providing for a return to State banks of excess taxes paid under the Hewitt law.

Yang Yu, the Chinese minister to Russia, is dead, after a brief illness. He formerly represented his government in Washington.

If the opinion of judges count for anything, politics in Kentucky must be near the hottest of all places. Judge Jewell said sometime back that "politics is hell," and Judge Mulligan said at Lexington a week ago, "The landscape is grained and politics the damndest."

Miss Stone has not yet been released, though her liberation is expected momentarily. The ransom money has been paid and the cause of delay in releasing Miss Stone is said to be a requirement of the brigands that they be given ample time to get out of the way.

While Prince Henry is in the United States he will be guarded by municipal police, by American secret agents and by detectives detailed by the special order of Emperor William. There will be the closest co-operation between the German and American agents for the purpose of preventing him falling the distinguished visitor.

The Senate ratified the treaty for the purchase of the Dan Shi West Indies. An amendment to strike out the clause that Congress shall fix the political status and civil rights of the inhabitants was rejected. Occupation of the islands will take place as soon as the ratifications are exchanged.

Louisville generally gets what she wants. She has been wanting the Legislature and will have it tonight. What she will want after the banquet has not been given out yet. Whatever it may be she will get it, unless, maybe, it is the removal of the capital to that place. That Louisville Commercial Club is "a hustler from away back."

"So the Rev. Twila, husband of her companion in pious works and profitable captivity, had a hand and a half in the kidnapping of Miss Stone. Ever since the coup of last September there have been frequent and unmistakable signs of a missionary nigger hid under that \$25,000 woodpile."—Louisville Times.

Prince Henry is a Knight of the Order of the Black Eagles, Knight of the Order of the Golden Plecter, Knight of the Order of the Annunciation, Knight of the Order of the Elephant, Knight of the Order of the Seraphim, Knight of the Garter, and Knight of the Order of St. Andrew. What a fine bunch of reasons the prince has for carrying a night key.—Washington Post.

Pains in the Back

Are symptoms of a weak, torpid or stagnant condition of the kidneys or liver, and are a warning it is extremely hazardous to neglect, so important is a healthy action of these organs. They are commonly attended by loss of energy, lack of courage, and sometimes by gloomy foreboding and despondency.

"I had pains in my back, could not sleep and when I got up in the morning felt worse than the night before. I began taking Hood's Sarsaparilla and now I can sleep and get up feeling rested and able to do my work. I attribute my cure entirely to Hood's Sarsaparilla." Mrs. J. N. FERRY, care H. S. Cleveland, Erie Road, Ark.

Hood's Sarsaparilla and Pills

Cure kidney and liver troubles, relieve the back, and build up the whole system.

President Roosevelt has lined up on the side of the "naïval clique" and has rejected Admiral Schley's appeal. His memorandum is addressed to Schley, but Sampson and the Court of Inquiry are gently rebuked. Schley is denied credit for the Santiago victory, is condemned for the "loop," when he should not have feared to go into "dangerous proximity." Sampson is rebuked for not reporting Schley's "reprehensible conduct" until a week after the battle of Santiago had been fought and won, when he should have been removed as second in command previous to the battle but for Sampson's apparent condonation of the alleged "reprehensible conduct." The Court of Inquiry is criticised for not having specifically condemned Schley for his failure to enforce an efficient blockade, and for not considering the question of command; and lastly, the President finds that while Sampson was technically in command, neither he nor Schley exerted any influence over ships other than his own, and that the battle of Santiago was "a Captains' fight."

Eqg. W. A. Burns, who was too sick to qualify as magistrate, in Henderson county, on January 6, lost out entirely. The Appellate Court has affirmed Judge Hart's decision that there is a vacancy in the office, thus establishing a very important point of law.

The Kellogg sanitarium at Battle Creek, Mich., was destroyed by fire Wednesday at an early hour. The loss is from \$300,000 to \$400,000. Most of the 400 inmates of the institution got out without injury, but it is thought one life was lost.

John Doyle, the seventh victim of the fight at Lee Turner's "Quarter house," in Bell county, is dead. Turner, for whom a \$400 reward has been offered, is "arranging to start a saloon over the Tennessee line."

The consideration in the House yesterday of the bill for removing the devices from ballots, after a lively discussion, was recommitted to the Judiciary Committee.

Now that the capital removal question is practically settled, the people of Frankfort have begun in earnest to secure the erection of a new capital building.

Charlie Wheeler seems to have stirred up the animals at Washington by his roast of Hay and Roosevelt for hobnobbing too much with royalty.

Hon. Levi P. Morton's daughter, Miss Alice Morton, was married in New York Wednesday to Winthrop Rutherford.

Henderson has extended its boundary lines and increased its population about 3,000.

NOT RELEASED.

No Word To The Foreign Mission Board Or The State Department From Constantinople.

Boston, Feb. 19.—No word from Treasurer W. W. Pest, of the headquarters of the American Board of foreign Missions at Constantinople, has come to the board here, announcing the release by the brigands of Miss Stone, and the officials have been in communication with the State Department at Washington in a vain effort to confirm the published story in Paris that Miss Stone and her companion had been delivered to the American legation.

BURNED TO DEATH.

Colored Child Fatally Burned Near Longview.

Left Alone in a Room With Other Small Children and Clothing Caught From the Fire.

A negro child of Quint Lacy, a farm hand living on Frank B. Lacy's place near Longview, was fatally burned Wednesday evening. The child was between three and four years old and was alone in a cabin with two other children about the same age. The mother was absent at the time.

While playing around the fire in the room, the little girl's clothing caught fire and the flames quickly burned all the clothing from her body. Her screams attracted the attention of other children in a nearby cabin and one of them about 7-years old ran to the rescue but could do nothing. The child lived in great agony for three hours and then died of her burns.

SPIRITUALISTS INCORPORATE.

Part Of Passage Of Scripture Embodied In Articles.

Articles incorporating the Kentucky State Spiritual Association were filed in Louisville this week. In addition to the privileges common to the ordinary corporation the association reserves the right to ordain as ministers and missionaries of Spiritualism all persons found to possess any of the gifts referred to in I. Corinthians, xii., and the article further provides that a fund be accumulated for the erection of a place of worship, the name of which is to be Speed's Memorial Temple, part of the passage of Scripture referred to is as follows: "For to one is given by the Spirit the word of wisdom; to another the word of knowledge by the same Spirit."

"To another faith by the same Spirit; to another the gifts of healing by the same Spirit."

"To another the working of miracles; to another prophecy; to another discerning of spirits; to another divers kinds of tongues; to another interpretation of tongues."

One Touch of Nature Makes The Whole World Akin.

Nature smiles on the man who displays common sense in buying his buggy (a Mascot) from W. T. B. & Co., No. 3, North Virginia street, opposite Hotel Latham. Low prices, high grade.

Better Roads Since The Grader Has been Used.

Editor KENTUCKIAN: I think we have had much better roads since the grader has been in use, and the farm hands have not had to do more than half as much on the road as they did before we had the grader. If the pikes bought need so much repairing so soon, I am afraid the county has bought as white an elephant as Uncle Sam bought when he paid Spain twenty millions for an aged rebellion. I may not have been correctly informed as to the action the court, but if I was, I think a vigorous protest should be made against stopping the grader. For it will not be just to give pikes to some roads, spend all in sight to make them better, and at the same time increase the burdens of those who have no pikes. And from present prospects it will be some time before all of them will have. Would be glad if some member of the county court would give you the writings of the court for publication in your paper, as that will probably reach more of the farmers of the county than any other paper.

"FINNIGAN'S BALL"

Will Be Presented at the Opera House To-Night.

"Finnigan's Ball," a comedy of many good qualities, plays an engagement at Holland's Opera House to-night in a new dress, but as of old, it sparkles and scintillates with fun and humor. Many new features have been infused in this delightful "skit," which seems hardly possible, as it has been in the past seasons the epitome of excellence. Managers Murray and Mack state that the company they have engaged to support Moran and Murphy is by far the strongest cast ever engaged to produce this piece. There is no one that is not an artist in his or her chosen line of work, while the musical portion of the performance is of an interesting nature. Songs are all new and the latest; the dances picturesque and novel, the specialties original and amusing. The scenery and electrical and mechanical effects are carried intact for each act, which enables them to offer a performance perfect in every detail.

Last Notice to Tax Payers.

All persons owing me taxes, are hereby notified that I will on March the 25th, 1902, advertise your property for sale for all taxes unpaid at that time. I will be forced to do this to raise money enough to settle with the county.

All who pay before that date will save \$1.50 cost of advertising. All persons who owe poll tax on the 1st day of April, 1902, will be put on the delinquent list.

My Hair

"I had a very severe sickness that took off of my hair. I purchased a bottle of Ayer's Hair Vigor and it brought all my hair back again."

W. D. Quinn, Marseilles, Ill.

One thing is certain—Ayer's Hair Vigor makes the hair grow. This is because it is a hair food. It feeds the hair and the hair grows, that's all there is to it. It stops falling of the hair, too, and always restores color to gray hair.

HEAD SEVERED.

Capt. Jack Hobbs Meets Death at Paducah.

Paducah, Ky., Feb. 19.—Capt. Jack Hobbs, chief inspector of the Illinois Central here, was found beneath a coal car early last night with his head severed from his body. A pile of kindling indicated that he was crawling under the car on his way home from work, when a switch engine backed it over him. The coroner's jury decided that death was accidental.

Biliousness Cured.

H. Seever, a carpenter and builder of Kenton, Tenn., when suffering intensely from an attack of bilious colic, sent to a nearby drug store for something to relieve him. The druggist sent him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, three doses of which effected a permanent cure. This is the only remedy that can be depended upon in the most severe cases of colic and cholera morbus. Most druggists know this and recommend it when such a medicine is called for. For sale by all druggists.

TALKED TO DEATH.

Advance Agent Gets "One on" the Barber.

George A. Florida, advance agent of Moran and Murphy, in "Pinnigan's Ball," tells a story he sprang on a barber yesterday. "You have noticed, probably, that I wear a bear's claw on my watch chain." This barber spied it as soon as he dropped me," "I suppose," said the barber, that you killed that bear yourself?" "Yes, I did, I replied. "Was it a grizzly bear?" "It was." A big one. "About the size of a two-year-old steer." "Gee Whiz! How many bullets did it take to kill him?" "None, I talked him to death. It is possible for creatures to be talked to death, sometimes." The barber shut up.

Mr. Wheeler Got Rid of His Rheumatism

"During the winter of 1898 I was so lame in my joints, in fact all over my body, that I could hardly hobble around, when I bought a bottle of Chamberlain's Pain Balm. From the first application I began to get well, and was cured and have worked steadily all the year.—R. Wheeler, Northwood, N. Y. For sale by all druggists.

She Recommends Chamberlain's Cough Remedy

"I have used Chamberlain's Cough Remedy for a number of years and have no hesitancy in saying that it is the best remedy for coughs, colds and croup I have ever used in my family. I have not words to express my confidence in this remedy.—Mrs. J. A. Moore, North Star, Mich. For sale by all druggists.

MISS SCHLEY IN TROUBLE.

Claims That Niece of the Admiral Has Published Some False Reports.

Milwaukee, Wis., Feb. 19.—Miss Jessie A. Schley, a niece of Rear Admiral Schley, has been dropped from membership in the Milwaukee Artistic Society. The reasons for the action were given in a formal statement by the secretary, in which Miss Schley is accused of publishing improper statements against the society, because two of her pictures were rejected for the society exhibition now at the Chicago Art Institute. The jury consisted of seven men, elected at the annual meeting.

"There was not a two-thirds vote present at the meeting," said Miss Schley, "and it requires a two-thirds vote to expel a member. My attorney was refused admittance to the meeting. One of my pictures, 'St. Agnes,' was accepted by the same jury twice before, for exhibition. The other picture, 'The Grand Concourse,' was painted in Paris, and placed on exhibition with the best work of Academie Juliane. I have been subjected to a torrent of insults ever since the society was organized, by members who sought to get me to submit my resignation."

For Stomach Troubles.

"I have taken a great many different medicines for stomach trouble and constipation," says Mrs. S. Geiger of Dunkerton, Iowa, "but never had as good results as from Chamberlain's Stomach and Liver Tablets." For sale by all druggists.

ZIONIST MOVEMENT.

Important Development Expected of Herzl's Visit.

London, Feb. 19.—The leaders of the Zionist movement anticipate important development as a result of the visit of Dr. Theodore Herzl, of Vienna, President of the Zionist Congress recently held at Basel, Switzerland, to Constantinople. Dr. Herzl was summoned to the Yildiz Palace by a special telegram from the Sultan and is now negotiating with the Sultan for the acquisition of concessions in Palestine permitting the unimpeded immigration and settlement of Jews there. Dr. Herzl's demands include a character granting some simple form of home rule and opening the Sultan's crown lands to Jewish colonization.

A representative of the Jewish Colonization Association, which was endowed by the late Baron Hirsch with a large sum of money, is also at Constantinople, which is taken to signify that the trustees of the Baron Hirsch fund are about to concentrate their resources upon Palestine.

The Flarch Delineator.

During the past year The Delineator's facilities for obtaining the first information of what is being done in the centres of fashion have been greatly extended, and it now commands resources, that, perhaps, are not possible to any other magazine. Some of these results are shown in the March number, where is presented the first intimation of the Spring modes in garments of all kinds and millinery—the work of some of the most noted designers of Paris, London, Vienna and New York. The literary features of the March number possesses high quality and great interest. The first paper on Pictorial Photography, by J. C. Abel, shows the possibilities of the camera in a series of beautiful landscapes, the work of well-known leaders in the photographic world. Dr. W. L. Savage, the noted physical director, contributes an article on Gymnasium Work for Women, with remarkable pictures taken from life. In the stories of Authors' Loves, Miss Laughlin tells the story of George Eliot with the greatest charm and delicacy; while another essentially literary paper is Dr. Elliott's Recollections of Maria White (Mrs. James Russell Lowell). A novellette by Arabella Kenealy, with pictures by E. M. Ashe, and a delightful pastoral by Shan F. Bullock, comprise the fiction for grown-ups, while the children will enjoy the further adventures of Dimples. Check and the Musical Brownies. The household department includes house furnishing, illustrated cookery, and new and economical recipes, domestic science, etc.

GOING AHEAD.

Machinery Of New Ice Company Being Put In.

A Large Force Of Workmen Getting Ready For April First.

On a visit to the plant of the Consumers' Ice Company Wednesday we found everything moving along at a rapid pace. Mr. L. L. Clark had a large force putting in the 100-horse power boiler, while a lot of other workmen were busy in other parts of the large building. The machinery has all arrived with the exception of a car load of metal boxes in which the water is frozen, and they will be in plenty of time for location when the company is ready to begin manufacturing ice. The plant was bought from the York Manufacturing company, of York, Pa., and has all the latest improvements in ice-making machines. Its capacity is fully up to all requirements in fact is double the capacity contemplated when the company was first organized.

In a conversation with Mr. Holland, we were informed that everything will be ready to commence manufacturing ice by the first of April. He says that consumers may confidently rely on the company being able to supply the public with all the ice needed by the above date. There will have plenty of water for all purposes, though a report has been circulated that the company has been unfortunate in the efforts to find water on the premises of the company. Everything is moving along satisfactorily and everybody can soon get all the ice they need of the best quality at the very reasonable prices for which the company was organized. There is no danger of an ice famine in the future, for which the public will feel profoundly grateful to the projectors of the new company.

ITEMS FROM DEER FALL.

BAD WEATHER.

More Of The Same Sort Must Be Endured.

Weather Prophet Hicks' Prediction Being Fulfilled To The Letter.

A great deal of the sleet that covered the earth four weeks ago is still on the ground. The street gutters in many places are filled up, all the telephone, telegraph and electric wires have not yet been put in repair, and the pavements on many streets are still covered with ice, making walking anything but agreeable.

The weather clerk has done a mean piece of work and sent us a rain which began to fall yesterday morning about 8 o'clock and continued to pour down pretty much all day. The rain froze as fast as it fell, and up to the hour of going to press the indications were favorable for a repetition of the same inconvenience we experienced three weeks ago. The trees were covered with ice, the wires had begun to sag with the weight of frozen rain and the streets and pavements were covered with a sheet of ice.

Weather prophet Ira L. Hicks' prediction for this continuation of miserable weather was published in the KENTUCKIAN the first of February. Should his forecast be fulfilled the remainder of February will be no improvement. Mr. ground hog, by his recent retirement left behind him a story of weather conditions to prevail up to the middle of March that is not at all consoling.

"Quick lunch" is one of the commonest of city signs. The sign doesn't say "a healthy lunch of good food—the character of the food apparently is not considered. It's just a quick lunch—eat and get away." Is it any wonder that the stomach breaks down? Food is thrown at it, sloppy, indigestible and unwholesome food, very often, and the stomach has to do the best it can. Normally there should be no need for medical assistance for the stomach. But the average method of life is abnormal and while this continues there will always be a demand for Dr. Pierce's Golden Medical Discovery. It is the one medicine which can be relied on to cure diseases of the stomach and the organs of digestion and nutrition. It is not a cure all. It is a medicine designed for the stomach, and to cure through the stomach remote diseases which have their cause in the derangement of the stomach and digestive and nutritive system. It cures when all else fails.

CURES CONSUMPTION.

Physician Claims, and Renders Operations Absolutely Painless.

Announcement has been made by Dr. C. C. Carroll, of New York, that he has found a way to short circuit the nerves by means of electricity so that operations will be painless. He says that he has performed many operations in the full view of the patients, yet, on account of the use of electricity, they experienced no pain. Dr. Carroll says that his treatment will cure consumption by stimulating the cells of the affected lungs.

When you lack energy, do not rely on your food, feel dull and stupid after eating, all you need is a dose of Chamberlain's Stomach & Liver Tablets. They will make you feel like a new man and give you an appetite like a bear. For sale by all druggists.

1902

Twenty-three Years.

In view of the fact that the KENTUCKIAN has wound up its 23rd year of success, it is not out of place to say a word to its friends. The KENTUCKIAN has long since become a fixture of Hopkinsville.

All Newspaper Records in the City Have Been Broken by it.

No other paper ever published in Hopkinsville can point to a record of more than 20 years, with each year's business better than the one before. How many papers in that time have tried to run in Hopkinsville and fallen by the wayside? How many have failed to reach the goal?

An ocean cable 10,000 miles long would not serve the purpose for which it was designed if it fell short within twenty feet of the receiving-instrument.

It isn't the first end that counts. It's the last end. The start is nothing. Every contestant starts in a race, but how many finish? Almost any horse can begin in a race. Wish a few trials, ever an old plug may get away from the wire all right, but it's the coming under the wire for the last time that counts, it's being in the race to the finish that is alone valuable.

A great many things in this world are made to begin well enough, but they fall short.

The KENTUCKIAN as an advertising medium has never fallen short. As a news medium, occupying a field of its own choosing, it has for 20 years stood squarely upon its merits and succeeded

WHERE OTHERS FAILED.

Advertisers should bear this in mind. Money spent for Newspaper Advertising is an investment. It is not how much the advertising costs, but how large will be the returns. The mission of Newspaper Advertising is to Sell Goods. When the careful merchant has decided the important question as to the right medium, then, by attractive display advertising in that medium, he will inevitably increase sales. This result follows as surely as day follows night. The

Kentuckian

is the medium that pays, because it reaches the people. It has among its patrons advertisers who have been with it without a break for 12 to 15 years. It numbers the very best class of advertisers in their respective lines of business.

If you are not already a customer of ours, we want to make you one, and your advertising ONE OF OUR SPECIALTIES.

Newspaper advertising has become an indispensable adjunct to business. You need the advertising, we have the space to sell. Come less do business with each other.

And to the reading public, remember we cover the entire news field twice a week for only \$2 a year. At least one half of the news we give is in advance of other publications, because our facilities for gathering out-of-town news are equalled by none. If your time is out renew promptly. If you have never taken the KENTUCKIAN, try it for 1902.

Chas. M. Meacham.

WHY THEY WERE POPULAR.

Family Owed Their Pleasant Vacation to Their Dog

He who tells this story is the owner of a blue-ribbon St. Bernard dog, a masterly fellow and winner of admiration as well as prizes, says the Washington Star. Last summer the dog went with his master and the family to a fashionable resort and was there the center of undiminished interest throughout the season.

"It was the most delightful summer we ever spent," related the teller of the story and the owner of the dog the other day, "and the people were the nicest as a whole we had ever met. Our popularity with the summer colony was most marked, and when the time came to depart it was with no end of sorrow that we began to make our adieus. Naturally it filled us with a good deal of pride to think that those with whom we had sojourned should wish we were not going to leave them. But our vanity was short-lived. There came a shock which set us all to thinking and wondering as to whom the credit for our prestige was due. It happened when a bright-faced, breezy girl of 18 who was wont to express her sentiments without reserve, came to say good-bye.

"Don't tell me you are going away," she negatively queried in a depressed tone of voice, and we began to feel that from her we were to get the most genuine expression of regret of the colony.

"Yes," I replied, "we have to go back to the city now, but we live in the hope of seeing our dear friends up here again in the near future."

"Oh," she continued, "I hate to have you go, indeed, indeed I do, for we certainly will miss your dog."

DEFENDING THE NEST.

Pluck of a Tiny Leveret When Disturbance Threatened

It had been a pouring wet morning and we were in some very dripping swedes. Hares were numerous, but we were not shooting them, having as many as we wanted. A hare went off rather wild, and one of the walkers found that she had just left a nest of four small leverets under the leaves of a big turnip. They were not quite so long as my hand, and each had a white spot on its forehead. When the man lifted up a leaf with his stick to show them better, one of the leverets came out about 18 inches from the nest, and, jumping up, struck the stick with its paws, making at the same time a small snuffing grunt. The other three kept quiet, but this little chap acted as champion to the lot, sallying out and striking the stick four or five times whenever it was poked at him. Keepers have told me that grown-up hares will do exactly the same thing to grazing cattle when they come near their young, striking the muzzle of the cow or ox with their forepaws and making a noise, and then lying down in the furrow again; but I never could have guessed that the fighting instinct could be present in a tiny leveret.—Country Life.

CIGARS GET SEASICK.

Curious Discovery Made by a Smoker of a Far Eastern Brand.

"Since our troops have been in the Philippines my friends among the officers stationed there have at frequent intervals been remembered with boxes of Manila cigars," remarked a member of Uncle Sam's fighting force, who was severely wounded at El Caney, and now on the retired list, to a Washington Star reporter.

"Recently I received a shipment of cigars," he continued, "but they proved a sad disappointment. In fact, they seemed to me to be entirely worthless. I puffed at one after another, but they simply could not be smoked. In despair I finally consulted a well-known tobaccoist. The situation was no problem to him. He promptly told me to lay the cigars aside for a few weeks, after which I would find them all right. He was correct. When I sought an explanation the tobaccoist assured me in all seriousness that the cigars had been sent from the voyage across the Pacific and needed rest.

"I have since learned," added the officer, "that wines and liquors are affected in a similar manner by ocean shipment."

Dutch Coal Mines

In the Dutch portion of the recently discovered Limburg coal field, three mines are at present raising coal, and in 1900 produced 320,224 tons, an increase of 107,352 tons over the previous year. There were exported to Belgium 40,908 tons, and to Germany 143,851 tons.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

THE AMERICAN MONTHLY REVIEW OF REVIEWS is commended by Statesmen, Professional men and thousands of others prominent in the world's activities, for its fine discrimination in sifting the actual news from conflicting report and the presentation of current events in their just proportion. They comment on its freedom from daily-paper sensationalism. All men and women who want to know what the world is doing find it an intellectual necessity, to judge from the letters received from hundreds. Its editorials are comprehensive, and labor saving to the busy man or woman. Its timely contributions on important topics are by the best-informed writers. Its reviews of other magazines give the best of their best work. It is profusely illustrated.

These letters will enable all thoughtful men and women to judge of its value to them:

PRESIDENT "I know that through its columns I have been presented to a review of reviews, and I think me that I could not otherwise have it a very important part of my bad access; because all earnest library, and practically a necessity and thoughtful men, no matter for one in public life."—J. B. How widely their ideas diverge, are *Forster, U. S. Senator, Ohio.*

EX-PRESIDENT "I consider it a very valuable addition to my library."—*Grover Cleveland.*

"It is a publication of very great value to me. I have sometimes found pleasure in saying that the 'Review of Reviews' is among the number which I should not otherwise have discovered."—*George F. Hoar, U. S. Senator, Massachusetts.*

Will Probated.

The will of Benjamin H. West was probated last Tuesday. His entire estate, consisting mostly of land, was left to Mrs. Nannie Johnson. One dollar each was left to his brothers, three sisters, his brother-in-law and three sisters of his deceased wife. The holographic will was dated June 17, 1889. Mrs. Johnson was an adopted daughter. Mr. West died on the 11th inst.

A Big Strike.

The manufacturers have made a strike for lower prices and F. C. Hollis at Pembroke has followed them up and cut prices accordingly from 25 to 50 per cent on all undertaker's goods and furniture in proportion.

Stop Snow-Balling.

We like to see the boys enjoy themselves, but sometimes they carry things a little too far. We have heard of near half a dozen people who have been injured by snow-balls. One or two have been struck in the ear, one in the eye, and two or three have received blows back of the head that caused violent headaches. This should be stopped.

INFORMATION

Wanted by a Lady Born in or Near This City.

The KENTUCKIAN is in receipt of a letter from Mrs. J. Annie Stewart, at Dallas, Texas, asking for information concerning her parents' relatives. She states that she was born here in 1875. Her father's name was Morris, and her mother's name was Majors.

After her father's death her mother moved to Texas in 1878 or 1879, probably the latter. Her mother died soon after moving to Texas. After the death of her mother all the papers belonging to her were lost in a fire. Being very young when her mother died she remembers but little she had ever heard her mother say about her family. She thinks her maternal grandmother (Majors), lived just over the line in Tennessee. Anyone able to give this lady the information desired should address her at Dallas, Texas, general delivery.

Something That Will Do You Good

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such good results in our family so long that it has become a household necessity. By its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their houses as a safeguard against croup.—Camden (S. C.) Messenger. For sale by all druggists.

Tennessee Business College

Was founded March 5, 1901, and has been in progress ever since, and with the greatest results and encouragement. We have had a large enrollment and have secured positions for every one of our graduates, without a single exception, and many of them are holding some of the most responsible positions, with salaries ranging from \$35 to \$125 a month. No better school anywhere.

We have four of the very best teachers of experience, who are graduates of the very best colleges in the South.

You can get no better, no more thorough courses anywhere. We are working for our reputation, hence it is to our advantage to thoroughly prepare our students and place them in good positions.

We are connected with three Employment Agencies in our cities and are having many more calls for book-keepers and stenographers every week than we can possibly supply. All you have to do is to take a thorough course with us, and the consequences will take care of themselves.

Our tuition is lower than anywhere else. We have a good boarding house to take all our students at \$8 to \$10 a month. This school is permanent. Write for Catalogue.
